Areca Leaf Tableware

Sustainable Tableware
for a Better Tomorrow

Made from
Fallen Areca
Palm Leaves

Oil and
Grease Resistant

Eco-friendly
Choice

Better for You.
Better for Earth.

Established in 2024, Sufi Overseas is an Indian export house specializing in the global supply of eco-friendly tableware and packaging, jute products, premium terry towels, and agricultural superfoods such as millets and moringa powder. We proudly serve HORECA businesses, importers, wholesalers, retailers, corporate clients, and institutional buyers across six countries, delivering carefully sourced Indian products backed by dependable logistics, rigorous quality standards, and a commitment to long-term business partnerships. Every partnership is built on a foundation of quality, transparency, and an unwavering commitment to customer satisfaction.

OUR STORY

Sufi Overseas proudly builds upon the legacy of Shri Rama Krishna Jewellers, an established wholesale gold jewellery enterprise in Aligarh, India, founded in 1994, which has served customers with integrity and excellence for over three decades. Inspired by the same values of trust, transparency, and long-term relationships, Sufi Overseas extends this entrepreneurial heritage into international trade—combining Mr. Om Prakash Gupta’s decades of business experience with a modern, globally focused approach to sourcing, quality control, and customer service. Today, we remain committed to representing the finest of Indian craftsmanship and manufacturing while delivering dependable export solutions to businesses across international markets.

FROM FOREST FLOOR TO FINE DINING

Areca leaf tableware is crafted from naturally fallen leaves of the Areca palm, collected after they shed naturally without harming a single tree. These leaves are sun-dried, cleaned, and heat-pressed into beautifully designed tableware using only water and temperature—without the use of chemicals, coatings, dyes, or synthetic additives. This preserves the natural strength, texture, and elegance of the leaf while ensuring a **100% food-safe experience** for everyday use.

By replacing conventional plastic and foam disposables, Areca leaf tableware plays a vital role in reducing plastic pollution and minimizing the burden on landfills and oceans. Our products are 100% biodegradable and compostable, naturally breaking down within weeks and returning to the earth as organic matter without leaving harmful residues or microplastics behind.

Repurposing fallen areca leaves also promotes circular resource utilization and supports rural communities by creating value from agricultural by-products. Choosing Areca tableware is more than just a switch in products—it is a conscious step towards a cleaner environment, responsible consumption, and a sustainable future for generations to come.

At Sufi Overseas, we are committed to delivering high-quality, durable, and elegant Areca tableware that combines functionality with environmental responsibility. Because real sustainability begins with what nature has already provided.
