Made in India

Established in 2024, Sufi Overseas is an Indian export house specializing in the global supply of eco-friendly tableware and packaging, jute products, premium terry towels, and agricultural superfoods such as millets and moringa powder. We proudly serve HORECA businesses, importers, wholesalers, retailers, corporate clients, and institutional buyers across six countries, delivering carefully sourced Indian products backed by dependable logistics, rigorous quality standards, and a commitment to long-term business partnerships. Every partnership is built on a foundation of quality, transparency, and an unwavering commitment to customer satisfaction.

OUR STORY

Sufi Overseas proudly builds upon the legacy of Shri Rama Krishna Jewellers, an established wholesale gold jewellery enterprise in Aligarh, India, founded in 1994, which has served customers with integrity and excellence for over three decades. Inspired by the same values of trust, transparency, and long-term relationships, Sufi Overseas extends this entrepreneurial heritage into international trade—combining Mr. Om Prakash Gupta's decades of business experience with a modern, globally focused approach to sourcing, quality control, and customer service. Today, we remain committed to representing the finest of Indian craftsmanship and manufacturing while delivering dependable export solutions to businesses across international markets.

FROM FIELD TO TABLE, SUSTAINABLY

Rice husk tableware is crafted by giving new life to one of agriculture's most abundant by-products. Instead of allowing rice husk to be burned or discarded—practices that contribute to air pollution and waste—it is transformed into durable, food-safe tableware through an eco-conscious manufacturing process. Made without plastic, harmful chemicals, or synthetic coatings, each product relies on natural plant-based binders such as starch, preserving the material's natural character while delivering excellent strength and functionality.

Designed for everyday convenience and environmental responsibility, rice husk tableware is completely biodegradable and home compostable, naturally returning to the soil without requiring industrial composting facilities. Its reusable, lightweight, and sturdy construction helps reduce dependence on single-use plastics while promoting a circular economy by converting agricultural waste into valuable, sustainable products. Choosing rice husk tableware is a simple yet meaningful step toward cleaner living and a healthier planet.

PRODUCT FEATURES

NATURALLY SOURCED

Made from repurposed rice husk, an abundant agricultural by-product.

ZERO CHEMICAL PROCESS

Manufactured using only heat, water, and natural starch binders. No chemicals, dyes, or coatings.

HOME COMPOSTABLE & BIODEGRADABLE

Breaks down naturally in home compost within weeks, leaving no harmful residue.

REDUCES PLASTIC POLLUTION

A sustainable alternative to single-use plastic and foam products.

SUPPORTS RURAL LIVELIHOODS

Generates additional income for farmers by converting waste into value.

STRONG & SAFE FOR FOOD

Food-safe, odour-free, and toxin-free. Suitable for dry food applications.

ROUND PLATES

12-Inch Plate

(30.5 cm X 30.5 cm X 2.2 cm)

Aporox weight per item- 170 gm

10-Inch Plate

(27 cm X 27 cm X 2.2 cm)

Aporox weight per item- 170 gm

8-Inch Plate

(20 cm X 20 cm X 2.2 cm)

Aporox weight per item- 80 gm

6-Inch Plate

(15 cm X 15 cm X 2.2 cm)

Aporox weight per item- 45 gm

HSN Code:
14049090

Shelf Life:
12 Months

Temperature Range:
-10°C to +120°C

Home
Compostable

Water Retention
Capacity:
Upto 1 hour

ROUND PLATES

11-Inch Compartment Plate

(27.5 cm X 18.6 cm X 3.2 cm)

Aporox weight per item- 200 gm

8-Inch Compartment Plate

(22.4 cm X 22.4 cm X 3.2 cm)

Aporox weight per item- 120 gm

HSN Code:
14049090

Shelf Life:
12 Months

Temperature Range:
-10°C to +120°C

Certification & Scientific studies conducted

Tests conducted and validated by CSIR - NIIST
(Govt. of India Laboratory)

- 1 | **Biodegradable Test**
(IS/ISO 17088-2.2018)

- 2 | **Eco-toxicity Analysis**
(ASTMD3987- 12)

- 3 | **Shelf-life studies**
(Yeast, mold, fungi) and colour (ISO 16779:2015)

- 4 | **Toxicology studies**
(in-vitro and in-vivo)

- 5 | **Surface chemical composition, morphology, wetting properties**
(SEM, TEM, XPS)

- 6 | **Mechanical properties of finished product**
(ISO 13061-5.2020)

- 7 | **Sensory properties of food packed in the developed container at different conditions**
(ISO 16779:2015)

Material Composition: Made from agricultural residues (rice husk, rice bran) and natural binders (starch).
100 % biodegradable, non-plastic, and non-toxic.
